Profile

Detail-oriented and passionate Web Developer with hands-on experience in Core PHP and Laravel seeking a full-time opportunity to contribute to robust, scalable web applications. Adept at writing clean code, following best practices, and solving real-world problems. Eager to work in a growth-oriented company where I can leverage my skills and keep learning.

Professional Experience

- 01/2025 – Present
Ahmedabad

Jr. PHP Web Developer
CHPL Group 🔗
 - Architected and implemented multiple client solutions using pure PHP (OOP) and asynchronous programming.
 - Designed, developed, and maintained scalable backend systems with secure user/admin authentication and CRUD operations.
- 09/2024 – 12/2024
Ahmedabad

Jr. PHP Developer
Xceltec Interactive Pvt Ltd 🔗
 - Played a key role in developing a feature-rich HRMS using CodeIgniter.
 - Built core modules: employee management, attendance tracking, payroll logic, and report generation.
 - Collaborated with UI/UX team to integrate responsive frontend components.

Education

- 03/2022 – 04/2024
Ahmedabad, Gujarat

Master of Computer Application
Gujarat Technological University

Completed a comprehensive postgraduate program focusing on software development, data structures, database management, and modern programming paradigms. Developed multiple academic projects that strengthened both theoretical knowledge and practical skills.

Skills

PHP	Laravel
Javascript	MySQL
Ajax	Jquery
Firebase	Bootstrap

Industrial Projects

- RNH (Requirement & HR Management)** 🔗
<https://rnh.chplgroup.org>
 - Built the complete system from scratch to manage recruitment and HR workflows.
 - Designed secure authentication, employee data management, and reporting features.

PPSavani (Association Management)

<https://ppsavanigroup.myassociation.app>

- Customized an existing association management system as per client requirements.
- Enhanced modules for member records, event handling, and communication.

Xceltec HRMS

<https://hrms.xceltec.in>

- Worked on corrections and modifications for core HRMS modules.
- Improved attendance, leave, payroll, and IAS report functionalities for accuracy.

Personal Projects

Socialfeed – Social Media Web-App

(Javascript, Firebase)

- Full social feed system with post creation, likes, comments, and user relationships.
- Firebase document interactions, real-time content display, and responsive design.

Chatbuddy – Chat Application

(Firebase, JS, PHP)

- Real-time messaging with Firebase Authentication, Firestore, presence indicators.
- Supports secure login/logout, smooth UI/UX, image sharing.

Mini Blog System

(Laravel, MySQL, Bootstrap)

- Full-featured blogging platform with user auth, rich-text editor, CRUD, and comment management.
- Clean MVC architecture enhancing modularity & maintainability.

Admin Panel – Social Media App

(PHP, jQuery, AJAX)

- Admin dashboard to manage users, posts, comments, and reports.
- Secure login, data filtering, pagination, and interactive UI.

Certificates

CSP (Certified Software Programmer)

Earned the Certified Software Programmer credential from IANT, covering core programming concepts, database management, and hands-on training in multiple programming languages, with practical projects and assessments to build strong software development skills.

DCA (Diploma in Computer Applications)

Completed the Diploma in Computer Applications (DCA) from NIELIT, gaining knowledge in computer fundamentals, Tally accounting, basic web development, and graphic design, with practical exposure to business and digital applications.
